SUMMARY

Recent Computer Science Engineering graduate with a strong foundation in programming and web development. Skilled in JavaScript, React.js, Next.js, Node.js, and PostgreSQL, with familiarity in tools like Figma and Notion. Completed academic and personal projects including AI-based applications such as text summarization and voice assistants. Interested in learning new technologies and building practical, user-focused solutions.

PROJECTS

Text Summarization using Deep Neural Networks

The project was to develop a text summarization tool using deep learning methods that can automatically summarize large amount of texts

PM Agent – AI-Powered Project Management System

Built an AI-powered Project Management Agent to automate and streamline product workflows including PRD generation, user stories, and sprint planning.

AI Voice Assistant for Task & Project Management

Developed an AI-powered Voice Assistant to manage tasks, assignments, and project workflows using voice commands. Implemented voice interaction features to create, assign, update, and track tasks hands-free.

SKILLS

Programming Languages

JavaScript

Backend

Node.js, Express.js

Frontend

React.js , Next Js

Tools

Figma , Notion , n8n

Databases

PostgreSQL

EDUCATION

UNDERGRADUATE DEGREE: B-TECH - COMPUTER SCIENCE ENGINEERING

Gitam University, Visakhapatnam
CGPA-7.1

2025

HIGHER SECONDARY EDUCATION (10+2): MATHEMATICS, PHYSICS, CHEMISTRY (MPC)

Pinegrove Junior College, Hyderabad
Percentage: 81.3%

2021

SECONDARY SCHOOL CERTIFICATE (10TH): GENERAL CURRICULUM (CBSE)

Greenwood High School, Warangal, TG
Percentage: 70%

2019
